Bachelor of Computer Science Engineering BangladeshUniversityOf Business &Technology

PROFILE

I have 2+ years of experience and am proficient in utilizing technologies such as PHP and the Laravel framework for backend development, as well as HTML, CSS, Bootstrap, JavaScript, and jQuery for frontend development. I am also experienced with Git for version control. Highly adaptable and eager to learn new technologies, I am currently seeking opportunities to apply my expertise in backend development and continue growing professionally.

WORK EXPERIENCE

PicoTechnology, Kurigram, Modhur-More

-FullStack Web Developer

- Designed and developed web applications using HTML, CSS, Bootstrap, and MySQL for database management.
- Implemented best practices for server deployment and maintenance to ensure high availability and stability.
- Collaborated with stakeholders to gather requirements and deliver innovative solutions that met client needs and ensured stability.

PROJECT
